SharePoint Full Lifecycle Support – Case Study

Headquarters, Department of the Army Directorate of Mission Assurance

PROJECT OVERVIEW:

Longevity supported the Headquarters, Department of the Army (HQDA) Directorate of Mission Assurance (DMA) with the transition from its outdated 2007 SharePoint site and shared drive folders to SharePoint 2010. For this effort Longevity was required to develop a Directorate-wide SharePoint site, which is easily accessible to all HQDA customers. The SharePoint site was designed to be accessible on both the Non-Classified Internet Protocol Router (NIPR) Network and Secure Internet Protocol Router (SIPR) Network.

LONGEVITY'S ROLE:

Our team provided full lifecycle support for standing up, deploying and maintaining the SharePoint sites including:

- Work with stakeholders to perform website requirements, analysis and recommendation planning
- Prototype various site solutions (i.e., Dashboards, Document Library Management, Versioning, Custom Lists, and Views)
- Website design, development, and testing
- Develop and maintain website content
- Perform all site administration and maintenance activities
- Conduct end user training and "Train the Trainer" sessions for program staff
- Conduct brown bags and learning sessions to increase organizational awareness of SharePoint capabilities and improve general understanding of knowledge management and collaboration
- Support the integration of SharePoint websites with federal mandates such as HSPD-12/PIV card login

BENEFITS REALIZED:

Longevity's SharePoint solution for the directorate exceeded the client's expectations. The work was completed on time and the sites created were more user friendly and professional than envisioned. One of the biggest challenges was the apprehension by the workforce, but Longevity overcame this obstacle by conducting desk side briefings and also holding brown bag lunch series to help educate and overcome employees' apprehensions. Longevity's quality control ensured the product delivered for government review exceeded quality standards.

OUR MISSION

Team Longevity is dedicated to providing the best possible solution for an organization. Drawing from a vast pool of knowledge and expertise, we are committed to ensuring that our customers are satisfied from day one. The bottom-line result is improved productivity, increased collaboration and greater efficiency in mission critical operations.
