OUR PROCESS

Longevity's process insight and understanding of the challenges associated with supporting all aspects of business strategy is the result of many years of experience. Longevity's consultants are vendor agnostic and will work within your organization's existing technology stack, making recommendations for COTS or Open Source analytics tools as needed. It is our goal to use our real-world experience and vast knowledge of technology and business to provide you with the best possible solution for your needs.

Mission Assurance

Handling situations with confidence and efficiency

Mission Assurance is the process of ensuring an organization's critical and essential functions continue under all hazard situations by creating proper mission planning, development, implementation, testing and continual process improvement when necessary. The process involves reaching across an entire organization, including partners, customers and suppliers, to meet all the requirements of the engagement and account for all contingencies. At Longevity, we take a multi-faceted approach to Mission Assurance by reviewing all security elements of an organization, ensuring we are able to address and improve the overall security posture, not just one piece of the security puzzle. We work with our clients to provide security intelligence and risk management solutions and to protect mission critical business information and systems from unauthorized access. Our team of experts have hands-on experience providing Mission Assurance program support for our clients to integrate, maximize unity of effort and minimize inefficiencies across the following security disciplines:

- Antiterrorism (AT)/ High Risk Personnel
- Continuity of Operations (COOP)
- Emergency Management
- Physical Security
- Operations Security (OPSEC)
- Personnel Security (PERSEC)
- Information Security (INFOSEC)
- Critical Infrastructure Risk Management
- Information Assurance (IA)/ Computer Network Defense
- Safety and Occupational Health
- Foreign Disclosure
- Sensitive Compartmented Information

Our Mission Assurance service offerings include:

Continuity of Operation

- Implementation Planning
- Plan Development
- Identifying and Establishing Continuity Facilities
- Tests, Training and Exercises (TT&E) Planning
- Annual Program Maintenance

Emergency Preparedness Support

- Occupant Emergency Plan Development
- Evacuation Planning
- Shelter in Place site identification and kit services
- Individual emergency supply bag/go-kits
- Alert and Notification System support
- Training and Exercise Development

Physical Security

- Physical Security Program Plans
- Staff Assisted Visits/Assessments
- Physical Security Inspections

SharePoint

- Secure and Non-Secure Administration and Knowledge Management support

OUR MISSION

Team Longevity is dedicated to providing the best possible solution for an organization. Drawing from a vast pool of knowledge and expertise, we are committed to ensuring that our customers are satisfied from day one. The bottom-line result is improved productivity, increased collaboration and greater efficiency in mission critical operations.

OUR ROLE

Longevity's role is that of a true industry partner, supporting the process from beginning to end. We have an outstanding record of past performance helping our clients achieve greater customer and employee satisfaction, eliminate waste, improve efficiency and reduce operational costs throughout their organizations.

A True Industry Partner

Protecting mission critical systems and data

Longevity Consulting, LLC (Longevity) is an SBA 8(a) certified, Service-Disabled Veteran-Owned, Small Disadvantaged Business with over 12 years of experience providing information technology, solutions-based consulting services. Longevity offers expertise in facilitating enterprise-wide IT strategic planning, enabling clients to align their strategic vision, business processes and information needs with their applications and technology infrastructure. Longevity's role is that of a true industry partner, in which we support the process from beginning to end, delivering quality services and continuously working to exceed the client's expectations. We have an outstanding record of past performance helping our clients achieve greater customer and employee satisfaction, eliminate waste and reduce expenses throughout their organizations.

Past Performance

Mission Assurance

Headquarters Department of the Army Directorate of Mission Assurance

HQDA DMA resides within the Office of the Administrative Assistant (OAA) to the Secretary of the Army, and was tasked by the Administrative Assistant to the Secretary of the Army with implementing the Army Protection Program (APP) for HQDA. The HQDA Protection Program functions as the overarching management framework to synchronize, prioritize and coordinate protection policies and resources. At the strategic level, the HQDA Protection Program serves to expand program oversight, ensure Senior Leader accountability and better facilitate risk-based decision making.

Longevity was awarded a prime contract to provide the HQDA DMA with subject matter expertise in COOP planning; Emergency Management; Information Assurance; Test, Train, & Exercise (TT&E); Policy Planning; Web/SharePoint development; Database and Systems Integration; and Continuous Process Improvement and knowledge management services to properly develop and implement the HQDA Protection Program and support the Central United States Registry (CUSR) mission. In order to meet these mission goals, Longevity provided contract and program management, developed Protection Program implementation guidance and smart books, developed online training for 12 protection program security elements and designed and implemented internal and external SharePoint sites to allow the program to run smoothly and efficiently for employees and customers. Additionally, Longevity provided shelter in place kit support by replacing expiring food bars, water and batteries in shelter-in-place kits that support over 14,000 HQDA personnel, and inventorying kit locations and location points of contact.

Our team of experts worked with the HQDA DMA to ensure that all requirements were met and accounted for all contingencies, from the development of new Standard Operating Procedures for the effective maintenance of data to the delivery of end-user training materials and implementation guides. At Longevity, we take a multi-faceted approach to security. We work with our clients to provide security intelligence and risk management solutions, protecting mission critical business information and systems from unauthorized access. It is our mission to ensure your organization is prepared to handle any situation with confidence and efficiency.
