

Training & Leadership Development

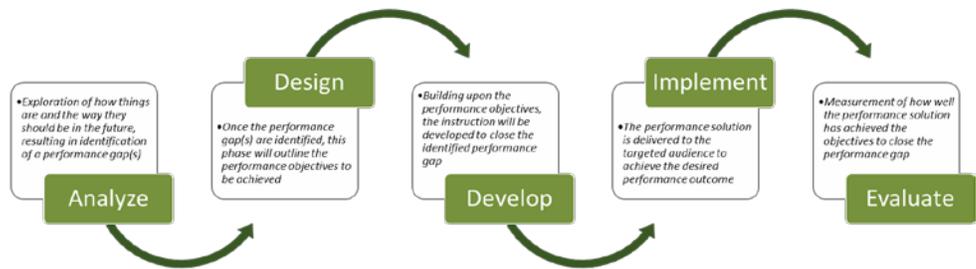

Promoting the initiatives and goals of our clients

Longevity has a track record of providing world class Training and Leadership Development programs, designed to promote the initiatives and goals of our clients. In addition to these custom engagements, Longevity has produced user guides, texts, websites and other hands-on materials to ensure success in the classroom and beyond. Our experienced team of instructors, writers and developers will work with your organization to provide the tools you need to implement a productive and successful program.

Not only do Longevity's consultants deliver top of the line, custom solutions and materials for your stakeholders, we go the extra mile to provide post-session evaluations. Utilizing these proven tools and methods, Longevity is uniquely positioned to engage your workforce in a meaningful, valuable learning experience that will help to take them to the next level.

OUR PROCESS

Longevity's process insight and understanding of the challenges associated with supporting all aspects of business strategy is the result of many years of experience. Longevity's consultants are vendor agnostic and will work within your organization's existing technology stack, making recommendations for COTS or Open Source analytics tools as needed. It is our goal to use our real-world experience and vast knowledge of technology and business to provide you with the best possible solution for your needs.

ADDIE TRAINING MODEL

Our methodology is organized around the ADDIE model, delivering a practical, workshop approach to LEAN process improvement and training that inspires fast results. The ADDIE model, illustrated above, is the process through which performance problems are transformed into learning solutions. Our proven methods and full fidelity execution of the ADDIE model will result in relevant, dynamic learning events that achieve notable gains in performance and knowledge for your team.

Our team has created coursework and delivered training in the following areas:

- Building Relationships
- Quality Control
- Time Management
- Teamwork and Collaboration
- Accountability
- Performance Management
- Results Orientation
- Knowledge Sharing
- Individual Development
- Dealing with Change
- Professional Integrity
- Communication
- Dealing with Difficult People
- Project Management

OUR MISSION

Team Longevity is dedicated to providing the best possible solution for an organization. Drawing from a vast pool of knowledge and expertise, we are committed to ensuring that our customers are satisfied from day one. The bottom-line result is improved productivity, increased collaboration and greater efficiency in mission critical operations.

OUR ROLE

Longevity's role is that of a true industry partner, supporting the process from beginning to end. We have an outstanding record of past performance helping our clients achieve greater customer and employee satisfaction, eliminate waste, improve efficiency and reduce operational costs throughout their organizations.

A True Industry Partner

Providing meaningful training solutions

Longevity Consulting, LLC (Longevity) is an SBA 8(a) certified, Service-Disabled Veteran-Owned, Small Disadvantaged Business with over 12 years of experience providing information technology, solutions-based consulting services. Longevity offers expertise in facilitating enterprise-wide IT strategic planning, enabling clients to align their strategic vision, business processes and information needs with their applications and technology infrastructure. Longevity's role is that of a true industry partner, in which we support the process from beginning to end, delivering quality services and continuously working to exceed the client's expectations. We have an outstanding record of past performance helping our clients achieve greater customer and employee satisfaction, eliminate waste and reduce expenses throughout their organizations.

Past Performance

Lean Six Sigma Training

United States Department of Agriculture

Since 2010, under our Prime BPA contract, Longevity has been providing business transformation services for numerous agencies within the USDA, including Continuous Process Improvement (CPI) and Lean Six Sigma (LSS) mentoring, coaching, training and support for process improvement, project selection and execution for the USDA Mission Areas and Staff Offices throughout various geographical locations in the United States and abroad. Longevity was tasked with the design and deployment of a USDA-wide CPI LSS Program, to include the development and delivery of CPI LSS Executive, Sponsor, Black Belt and Green Belt training. Throughout the program, our consultants were able to identify opportunities for process improvement, producing quantifiable results, strategically aligned with the USDA's mission. Longevity personnel served in strategic, operational and tactical mentorship and coaching roles, and developed project management and reporting systems to identify key milestones and produce dynamic progress reports. Longevity's attention to detail and past experience allowed us to provide them with a meaningful, efficient training solution, making recommendations and designing custom solutions and products throughout the process to ensure customer satisfaction and project success.

Leadership Training

The Center for Scientific Review

The Center for Scientific Review (CSR) required the development and deployment of a leadership training series for its staff. Longevity's objective was to provide a world class training program designed to deliver a series of interrelated, facilitated training sessions and workshops that would establish the framework and skills required for CSR staff to successfully assume leadership in all aspects of their lives and careers, improving the management of the organizations of which they are part and each individuals' career trajectory. The training would also provide the foundation required to promote the developmental skills of collaboration, teamwork, accountability and consistency needed to successfully fulfill the CSR's mission. Through careful collaboration and attention to the needs of the CSR and their stakeholders, Longevity was able to provide the staff with information and training that they could readily apply in both their position within the organization and their day-to-day lives. The benefit to the CSR was realized in the improved performance of their workforce and the reinvestment of their dedication to the agency.
