

Longevity Consulting

Embrace Change With Confidence

In 2002, our founders saw a need for a different kind of IT consultancy. One that offered industry-leading expertise at a more affordable rate. And one that acknowledged that the best work comes from better teamwork and strong client relationships. Since then we've grown to a team of 50 vetted consultants with deep domain experience across technology, business, and government. Our work has won awards and transformed organizations.

Our mission is to accelerate meaningful change for government agencies and the people they serve. In practice, this mission takes many forms: providing breakthrough thought leadership, innovative processes, cutting-edge tools, and advanced technologies. We work hand-in-hand with our clients to not only solve their most pressing challenges but to better position them for future success.

- ▶ Cybersecurity
- ▶ Certification & Accreditation
- ▶ Mission Assurance & COOP
- ▶ Physical Security

A Trusted Industry Partner

Supporting the Process from Beginning to End

Past Performance

United States Department of Agriculture (USDA)

Continuous Process Improvement (CPI)

Longevity has served as a business transformation partner for numerous agencies within USDA, providing business process re-engineering services, LSS mentoring, coaching, training and support for process improvement. Through these efforts, we successfully identified numerous areas in which the agency and its staff could implement new, more efficient processes and programs.

United States Department of Agriculture (USDA) Forest Service (FS)

Human Resource Information Technology Support

Longevity was awarded a five-year IDIQ to support human resource information technology needs. Longevity is leading the Project Management Office (PMO) and coordinating the efforts of all IDIQ vendors on the agency's largest HR IT contract. Our team is also providing dedicated IT service support centered around all aspects of the software development lifecycle to include Risk Management, Strategy Development, Change Management, Knowledge Transfer, Training, Capital Planning, Budget and Procurement Support to include Business Case, IGCE, OMB-300 Reporting and Advisory Services.

United States Department of Housing and Urban Development (HUD) Federal Housing Administration (FHA)

Business and Technology Modernization Services

Longevity was engaged by the FHA to support business and technology modernization efforts for the Single-Family Housing Program. The Single-Family support project encompasses a wide range of tasks and activities, from the review and analysis of existing policy and procedures, evaluation of tools and solutions to automate elements of the Single-Family loan program, review and improvement of program business processes, development of performance metrics and dashboards, deployment of mobile applications as well as other program support tasks. The work is a great example of Longevity's ability to deliver business transformation services which encompass both traditional management consulting and technology enablement capabilities.

USDA, Rural Business and Cooperative Services (RBCS)

Portfolio Analytics and Risk Management Services

Longevity developed comprehensive risk management dashboards and forward looking analytics using industry best practices and leading analytics tools. The resulting analytics provide a view of the portfolio risk by industry segment, geographic distribution, high-risk lenders and borrowers, and even views of event-driven risk events.

NIH, National Heart, Lung and Blood Institute Center for Scientific Review (CSR)

Career Development Training

Longevity provides training for the CSR Support Development Program that focuses on developmental skills to enhance collaboration, teamwork, accountability and consistency within the divisions and offices at CSR and NIH. Longevity developed and delivered a customer tailored professional development training curriculum, facilitated all classroom sessions and identified opportunities for process improvement with quantifiable and strategically aligned results.

Longevity proudly serves more than 30 agencies and commercial clients, including:
