Services

PEOPLE

Our people practice is at the heart of what we do. Highly motivated, highly skilled, and highly efficient People are needed to solve complex challenges. Our tried and tailored People solutions mean things will be done right, according to established federal HR policies and standards.

PROCESS

Our process practice is all about getting things done more efficiently and consistently. Whether your need is strategic or operational, we can advise you on the best path forward or provide embedded SMEs to complete the tasks at hand.

INNOVATION

Our Innovation practice brings clarity to Federal IT modernization and operations, with all the regulatory requirements and constantly changing technologies. Our senior IT advisors meet you where you are and have extensive experience to help you get where you need to be, making sure you adhere to federal requirements along the way. Our technologists are supporting highly-visible IT transformation efforts across the government. We know it's not easy. We are here to ensure you will be successful.

OUR CUSTOMERS

GSA, Technology Transformation Services, Centers of Excellence (CoE)

The CoE is at the forefront of federal technological transformation. Their highly skilled, agile teams dive in to accelerate modernization enterprise wide. Federal agencies and departments partner with the CoE to co-create and optimize initiatives big and small. Partnered with Longevity's program management experts, the centers strategize and collaborate to support modernization and prioritize people in the process.

U.S. Department of Agriculture (USDA) Forest Service (FS) Human Resources Technology

The FS has a workforce of more than 40,000 permanent and temporary seasonal employees. Since 2017, we have supported Human Resources Enterprise Solution (HRES) in crafting and implementing the strategies and tools needed to recruit a diverse workforce, promote an inclusive culture, and attract and retain top employees. Partnered with our strategic management experts, FS continues to digitize core operations that positively impact their entire workforce.

U.S. Department of Housing and Urban Development (HUD) Federal Housing Administration (FHA) Business and Technology Modernization Services

Modernizing business and technology efforts for the Single-Family Housing Program supports their mission of giving families and individuals the opportunity to buy, build, repair or own safe and affordable homes in rural America. We review policy and procedures and evaluate tools to automate essential elements of the program, streamline processes and performance metrics, and deploy new technologies.

U.S. Department of Education, Education Grants Management Support Services (EDGMSS)

Technical assistance, performance measures and program results are part of Longevity's full-lifecycle support for the Department of Education's Grants Management programs. To support the EDGMSS mission – to promote student achievement and ensure equal access – we implement internal control systems, mechanisms and activities that ensure the appropriate awarding of grants pre-award, technical assistance post-award and results tracking that informs future grant efforts.

U.S. Department of Agriculture (USDA) Forest Service (FS), Acquisition Lifecycle Support

Contracting, Procurement, Acquisition Management, Property Services and Grants & Agreements (G&A) within the USDA and FS execute the business arrangements in accordance with the Federal Acquisition Regulations (FAR) needed to meet USDA and FS missions. Longevity provides acquisition and strategic management consulting, including customer experience, acquisition preplanning and service delivery. Our team advises and assists FS with execution of a variety of procurement/contract actions including solicitation development, proposal evaluation, analysis of cost and price, award recommendations, post-award administration, and contract close-out in accordance with applicable rules, policies, laws and regulations.
